# Diamond Cleaning System

**JUST ADD WATER**

**NO HARSH CLEANING CHEMICALS NEEDED**

*Promoting a sustainable future with eco-friendly cleaning.*

## Twister™ WHITE

800 Grit  
**Step 1**

Twister™ White will effectively remove light scratches and stains from the surface and leaves a clean, matte surface prepared for the subsequent Twister™ steps.

## Twister™ YELLOW

1500 Grit  
**Step 2**

The Twister™ Yellow begins the polishing process. The Yellow pad brings out the initial luster of the floor's surface and prepares the floor for the final step of high gloss maintenance.

## Twister™ GREEN

3000 Grit  
**Step 3**

The Twister™ Green is the final step in the Twister™ process. This final step will bring out a high gloss appearance on stone, terrazzo, smooth concrete, VCT and linoleum. The Twister™ Green is also ideal for daily maintenance.

*For extra heavy duty cleaning.*

## Twister™ RED

400 Grit

For heavy duty cleaning of worn stone floors. Twister™ Red will effectively remove scratches and stains from the floor and leaves a clean, matte surface prepared for the subsequent Twister™ steps.

## Twister™ BLACK

100 Grit

For heavy duty cleaning of stained and dirty industrial coatings on **raw concrete surfaces only**. Removes oil, grease, soot and tire marks.

*Promoting a Sustainable Future*

## A brilliant cleaning result every day

The Twister™ is a revolutionary cleaning system consisting of floor pads containing billions of microscopic diamonds which clean and polish the floor mechanically instead of using chemicals. Twister™ can be used on most common floor surfaces such as terrazzo, natural stone, concrete and VCT. Twister™ transforms dull, worn floors into clean, glossy and brightly polished floors. Twister™ is a cost efficient and environmentally friendly method to clean and maintain a floor's appearance.

### Environmental sustainability

- Reduced chemical usage - only water needed in daily cleaning and high speed buffing
- Fiber made from 100% recycled PET plastic

### User friendly

- Pads fit all types of machines
- Cleaning routine remains the same

### Outstanding quality

- High level of gloss
- Extreme cleanliness

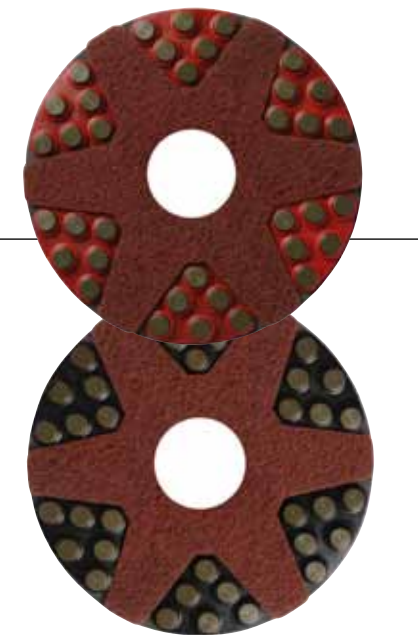

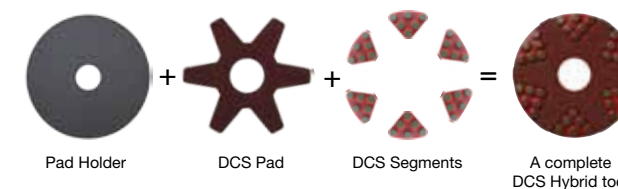

### Cost efficient

- Reduces cleaning time
- No periodic maintenance needed
- Long pad lifetime
- No chemicals needed

## Twister™ DCS Hybrid™

The Hybrid™ method is a combination of both light grinding and the Twister™ maintenance method that will refurbish a worn stone floor with major scratches or "orange peel". Start with the Hybrid™ Black disc and immediately follow up with the Hybrid™ Red disc for light grinding of the stone surface. Finish by using the standard Twister™ process to bring up the shine.

*The DCS Hybrid™ tools consist of three different items; the pad holder, the DCS pad and DCS segments. The pads are sold in pairs and the holders individually. The segments are sold in boxes of six.*

**DCS Hybrid™ Red**  
Removes scratches, wear and staining on natural stone and terrazzo floors.

**DCS Hybrid™ Black**  
The DCS Hybrid™ Black is the most aggressive of the Hybrid™ series. It will remove minor scoring, lippage, excessive wear and staining.

*Available in the following sizes: 13, 14, 17, 20 and 21 inches.*

<b>Poor Condition</b>	DCS Hybrid Black	DCS Hybrid Red	Twister White	Twister Yellow	Twister Green
<b>"Orange Peel" or Small Scratches</b>		DCS Hybrid Red	Twister White	Twister Yellow	Twister Green
