

Twister Green diamond pad

PRODUCT SPECIFICATIONS

1.0 Description

The TWISTER™ Green is a diamond impregnated floor pad used for fine polishing and daily cleaning.

2.0 Properties

Property	Value
Thickness	1 in 26 mm
Weight	35 oz/yd ² 1187 g/m ²
Fiber Type	Polyester
Fiber Weight	13 oz/yd² 441 g/m²
Binder System	Proprietary
Binder Application	Spray
Abrasive Application	Spray
Abrasive	Industrial Diamonds 3000 Grit
Color	Gray/Green
Pack	2 per case

3.0 Use

Highly effective for removing light scratches and producing a high gloss surface when used for daily maintenance. TWISTERTM Green is ideal for use on all floor surfaces such as stone, terrazzo, marble and VCT floors. Excellent for high-speed polishing of all natural stone surfaces.

4.0 Construction

The TWISTER™ Green Pad is made of 100% recycled polyester impregnated with billions of microscopic diamonds.

5.0 Labeling

Labeling is to clearly identify product, size, and quantity.

6.0 "Green" Initiative

- a. Polyester fiber used in our pads come from 100% post consumer and industrial recycled waste product.
- b. Shipping cartons contain at least 45% recycled material.
- c. Plant is operating under EPA approved
 Clean Air Permit.
- d. In-house water treatment has reduced our waste water flow by 83%.

7.0 Directions for Use

Remove sand and debris on floor surfaces by dry mopping. Dry mopping reduces the wear on your TWISTERTM, as well as on the floor and cleaning tools. Always mount the TWISTERTM pads on Velcro holders without central locks. The pad is fastened with the text "This side up" upwards toward the Velcro holder. Now you can clean, polish and preserve the brilliance of your floor. The result will be a clean, sparkling floor that looks inviting.

8.0 Product Care

For continued good results, it is important to clean your pads thoroughly by rinsing them off with water. This removes dirt that can wear on the floor and reduce the life of the TWISTER TM pad.

Note: Due to the intrinsic properties of the material and variable conditions of use, there may be slight variations in the specifications and results.
