Join the Cleaning Revolution

Are you losing out on the opportunity to maintain your customers' natural stone, terrazzo, and polished concrete floors? If so, take a few minutes to carefully consider the Twister™ Diamond Cleaning System, a revolutionary cleaning and polishing system for hard surface floors.

Twister's™ breakthrough technology will help you transform a dull, worn floor into a glossy and brightly polished floor, while saving you time and money.

Ideal for hard surface floors such as:

- Marble and Granite
- Terrazzo
- Polished Concrete

Twister™ is an excellent maintenance and cleaning solution for any size area including shopping malls, airports, schools, and hospitals. There is no need to use any other cleaning method or chemicals to restore or maintain your floor.

- Maintain your floors' shine without the use of waxes, sealers, or other caustic and dangerous chemicals
- Provides an attractive floor surface that enhances your customer's experience
- Simple and easy process that almost anyone can accomplish without fear of ruining an expensive floor
- Works on all types of single discs, auto scrubbers, and UHS burnishing machines
- Huge savings because it eliminates the need for costly, periodic maintenance and restoration
- Replaces all other cleaning methods for stone, terrazzo, and polished concrete
- Simplifies and streamlines daily maintenance procedures

- Environmentally Friendly – the Twister™ system eliminates the use of floor strippers, finishes, and sealers

clean, shiny floors result in satisfied customers...
...over and over and over again!

One Method — Many Possibilities

Do you need to use expensive coatings on your floors that will wear away quickly and which, in reality, don't solve your floor maintenance problem? Do you think that maintenance of natural stone, terrazzo, or polished concrete floors is just too risky and complicated to get involved with?

No! The Twister™ system allows you to clean, polish, and preserve the brilliance of hard surface floors without troublesome and time-consuming efforts of chemical based systems. The Twister™ system allows you to maintain natural stone, terrazzo, and polished concrete effortlessly. A troublesome bank or hotel lobby, worn down stair treads, or a polished concrete warehouse floor doesn't need to be a headache any longer!

HOW TWISTER™ WORKS!

The Twister™ system features three patented cleaning and polishing pads as well as special formulated CLEANER. The pads, a combination of high performance floor pads and selected polishing materials, including industrial diamonds, give you the tools you need for everything from rough cleaning to the final fine polishing and continuing maintenance.

Twister™ pads can be mounted on all existing cleaning machinery. You simply need to follow the easy three step process to achieve a brilliant and affordable floor shine.

3 EASY STEPS!

STEP 1: Using the white Twister™ pad and the correct dilution of TWISTER CLEANER™; deep clean the floor, and remove smaller scratches from its surface. The result is a clean and uniform surface ready for the polishing step.

STEP 2: Now use the yellow Twister™ pad and TWISTER CLEANER™ to begin polishing the surface. You will now begin to see the potential luster your floor has.

STEP 3: Finish with the green Twister™ pad and TWISTER CLEANER™ to bring out the full brilliant shine of your floor. Thanks to Twister's flexibility and composition, your pad will clean down into grout lines and irregularities to deliver unsurpassed results.

Renovation Program

Natural Stone & Terrazzo

	TWISTER Standard	TWISTER Intensive	TWISTER Extreme	Cleaning Method	
WHITE 	Scrubbing and Cleaning: - run WHITE TWISTER using an auto-scrubber, approximately 2-3 weeks depending on the wear.	Scrubbing and Cleaning: - run 10 times over the surface - wet the surface on the first pass - wet suction the solution on the sixth pass - Run approx. 1.5 mi/h.			Clean & Uniform
YELLOW 	Polishing: - run YELLOW TWISTER using an auto-scrubber, approximately 2-3 weeks depending on the wear.	Polishing: - run 10 times over the surface - wet the surface on the first pass - wet suction the solution on the fifth pass - Run approx. 1.5 mi/h.			Clean & Shiny
GREEN 	Gloss Polishing: - run GREEN TWISTER using an auto-scrubber, approximately 2-3 weeks to obtain full lustre. Continue with Green TWISTER to maintain the brilliance.	Gloss Polishing: - run 10 times over the surface - wet the surface during the first pass - wet suction the solution on the fifth pass - Run approx. 1.5 mi/h - Continue with GREEN TWISTER to maintain the lustre.			Clean & Very Shiny
GREEN 			High Gloss Polish: - run 2 times over the surface with a high-speed machine. (1500 RPM minimum)		Extremely Shiny

Maintenance Program —

Natural Stone & Terrazzo HTC Superfloor™

GREEN 	TWISTER Standard Maintenance: - run GREEN TWISTER and CLEANER according to normal procedure.	Cleaning Method 	Clean & Very Shiny	
GREEN 	TWISTER Extreme High Gloss Polish: - run 2 times over the surface with a high-speed machine.		Extremely Shiny
