# The Liquidator – Solution Applicator

## Features:

The Liquidator is a key component of the Sidewinder WorkSmart™ stripping system. Only the Liquidator can lay down strip solution fast enough to stay ahead of the Sidewinder stripper. Don't work hard, work fast and smart with the Aztec WorkSmart™ stripping system.

- Rugged solid steel frame
- Nylon ball bearings throughout entire driver system
- User-friendly, quiet with smooth operating features
- Easy access for cleaning through 8" lid opening
- Corrosion proof polyethylene tank

## Productivity:

The Liquidator is lightweight and extremely portable. With a 52" reach, the Liquidator dispenses up to 45,000 sqft/hour. The flexible, swing-away arm allows easy access to areas as narrow as 26" to accommodate obstacles and narrow aisles.

Stripping solution usage is reduced by an evenly controlled flow from the 36 gallon polyethylene tank. The Liquidator is manually powered with NO batteries, NO motor and few moving parts. The Liquidator is also easily portable and virtually maintenance free.
