The TWISTER™ Red is a diamond impregnated floor pad used for extra heavy duty restoration.

2.0 Properties

Property	Value
Thickness	1 in 26 mm
Weight	35 oz/yd ² 1187 g/m ²
Fiber Type	Polyester
Fiber Weight	13 oz/yd ² 441 g/m ²
Binder System	Proprietary
Binder Application	Spray
Abrasive Application	Spray
Abrasive	Industrial Diamonds 400 Grit
Color	Gray/Red
Pack	2 per case

3.0 Use

For heavy duty cleaning of worn stone floors. TWISTER™ Red will effectively remove scratches and stains from the surface and leaves a clean, matte surface prepared for the subsequent Twister™ steps.

4.0 Construction

The TWISTER™ Red Pad is made of 100% recycled polyester impregnated with billions of microscopic diamonds.

5.0 Labeling

Labeling is to clearly identify product, size, and quantity.

6.0 “Green” Initiative

- Polyester fiber used in our pads come from 100% post consumer and industrial recycled waste product.
- Shipping cartons contain at least 45% recycled material.
- Plant is operating under EPA approved Clean Air Permit.
- In-house water treatment has reduced our waste water flow by 83%.

7.0 Directions for Use

Remove sand and debris on floor surfaces by dry mopping. Dry mopping reduces the wear on your TWISTER™, as well as on the floor and cleaning tools. Always mount the TWISTER™ pads on Velcro holders without central locks. The pad is fastened with the text “This side up” upwards toward the Velcro holder. Now you can remove scratches and stains from worn stone floors.

8.0 Product Care

For continued good results, it is important to clean your pads thoroughly by rinsing them off with water. This removes dirt that can wear on the floor and reduce the life of the TWISTER™ pad.

Note: Due to the intrinsic properties of the material and variable conditions of use, there may be slight variations in the specifications and results.
